

MIDCAL-SPT

Surface Protection Treatment for concrete, pool decks, rock work, natural stone, stucco, wood, pavers, and driveways

FEATURES

- Protects the surface from spills, body oils, sun tan lotion and everyday dirt
- Inhibits mold, mildew, and algae growth
- Delivers UV protection for colored/decorative concrete
- Helps keep protected surfaces bright and new looking

BENEFITS

- Easy application with pump-up sprayer
- Designed for one, quick drying application - never apply multiple coats
- Completely safe to use, environmentally friendly - will not yellow, peel or flake off
- May be applied to either damp or dry surfaces

DIRECTIONS FOR APPLICATION

- Determine how much product to be used (350-400 square feet per gallon)
- Pour required amount into pump-up sprayer; Begin spraying from the bottom to the top; Ensure no areas are missed
- Allow 20 to 30 minutes to dry, (depending on sun and weather) and complete project as normal
